	and the Mindenburg Kaserne, Glauchau (N 51/K 35), held daily exercises at Voi tlande, about 4 km south of Glauchau, between 20 March and 3 April 1950. Both types of amoreu vehicles had the same chassis with six bogie wheels, three track-supporting rollers, one drive wheel and one idler wheel perside. They mounted a different main amament, however. The gun barrel

2	. Stolber: (N 51/K 64) was vacated by Soviet troops in February 1950, according to local residents.	
	Comment:	
	a. Troops in Glauchau	
	(1) The 220th Hv Tank 5F Regt of the Lighth Gds Army has so far been assumed stationed in the Hindenburg Asserne (also called Hanner Kaserne), Glauchau. The unit in the mentioned Friedrich August Kaserne is not known. Although peferred to barracks other than the Hindenburg Kaserne, a Friedrich August Kaserne has never been mentioned in any previous report. It may be a section of the Hindenburg Kaserne.	25X

the 57th 3ds Ltz wiffe Div, it seems unlikely that a component unit of that division should be permanently stationed in Glauchau. There is a possibility that permaps radio venicles of the division sight have participated, for training reasons, in a field exercise of the 220th NV Tana Si Rest in the Glauchau area.

- (3) Le 220th By Tank Sr hegt also held its 1949 maneuvers at Ohrdruf. It is therefore assuled that, together with the other Eighth 6ds Anny units which started leaving for the troop training grounds if Chrdruf and kindel in mid-April 1990, the regiment may have left Glauchau at that time.
- b. Evacuation of Stolberg
